

Amendments to the Specification

- 25 Please replace the paragraph beginning on line 14 of page 26 with the following substitute paragraph:
- In the examples and throughout the present specification, parts and percentages are by weight unless otherwise indicated. Further, as will be understood by a person of ordinary skill in the art, specific accession numbers represent the identity of the gene assigned that accession number on the priority filing date of the present application, as understood by a person of ordinary skill in the art.
